DETAILED ACTION

1. Applicants' submission of the amendment of 9/23/03, Paper Number 6, is acknowledged.
2. Claims 1-69 are pending and are examined.
3. The rejection under 35 U.S.C. 103 is withdrawn in view of applicants' persuasive argument in that the prior art does not teach irreversible modification of surface proteins by covalent attachment of a compound while leaving the nuclear components substantially intact.
4. The rejection of claim 1 under 35 U.S.C. 102(b) is maintained for the following reasons: First of all, applicants were in error in stating that the Examiner rejected claims 1-33 under 35 U.S.C. 102(b). Only claim 1 was rejected under 102(b). Secondly, the rejection stands because the claimed invention in claim 1 is very broad in that the claim embodies any purified microorganism that comprises surface protein that has been irreversibly modified such that the microorganism is thereby rendered non-pathogenic. As stated in the previous office action, the cited patent discloses a microorganism that is altered or modified, for example, by heat treatment. This would render the microorganism non-pathogenic and would alter the surface proteins. At the same time, the nuclear components would be left substantially intact. Applicants state that the cited patent does not teach production of a "control material" having intact nuclear components. It is noted that Applicants' claim 1 does not recite a "control material" having intact nuclear component.
5. Claims 2-69 are deemed to distinguish over the prior art.
6. Claim 1 is not allowed.

7. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
